Non-Personal Identification Information

We collect non-personal identification information without limitation, through the use of the following types of methodology:

- **"Cookie" technology:** A "cookie" is an element of data that a website can send to your browser, which may then store it on your system.
- **"IP address tracking":** An IP address is a number that is assigned to your computer when you are on the Internet. When you request pages from our Sites, our servers log your IP address.
- **"Web beacons":** A Web beacon, or "clear gif," is a small graphic image on a webpage or web-based document that a website can use to determine information about a user.

Non-personal identification information might include the browser you use, the type of computer, technical information about your means of connection to our Sites (such as the operating systems and the Internet service providers utilized), and other similar

information. Our systems may also automatically gather information about the areas you visit and search terms you utilize on our Sites and about the links you may select from within our Sites to other areas of the World Wide Web or elsewhere online.

We use such information for our business purposes, and, in particular, primarily to administer the Sites, and, in the aggregate, to what technologies are being used so that we may continually improve our Sites.

Privacy of Children

We are mindful that young people need special safeguards and privacy protection. We realize that they may not understand all the provisions of our policy or be able to make thoughtful decisions about the choices that are made available to our adult users. We strongly urge all parents to participate in their children's exploration of the Internet and any online services, and to teach their children about protecting their personal information while online.

We collect only enough information to process your donation and do not use the information for any other purpose. Your payment information is transmitted to us using a secure internet method that helps ensure the privacy of this information.
